

School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the State Board of Education prepared State Goals for Learning with accompanying Illinois Learning Standards.

The School Board gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

Quality Assurance

The School Board continuously monitors the quality of the District's work. The Superintendent shall supervise the following quality assurance components, in accordance with State Board of Education rules, by:

1. Preparing each school's annual recognition application and quality assurance appraisal, whether internal or external, to monitor each school's process for continuous school improvement.
2. Establishing school improvement plans that contain:
 - . District student learning objectives,
 - . Assessment systems for measuring students' progress in the fundamental learning areas, and
 - . Reporting systems for informing the community and the State of assessment results.

The Superintendent shall regularly report the District's progress to the Board and seek Board approval for each School Improvement Plan.

School Choice for Students Enrolled in a School Identified for Improvement, Corrective Action, or Restructuring

This Section applies to only those students enrolled in a school identified by the State Board of Education for school improvement, corrective action, or restructuring according to federal law. Those students may transfer to another public school within the District, if any, which has not been so identified. If there are no District schools available into which a student may transfer, the Superintendent or designee shall, to the extent practicable, establish a cooperative agreement with other districts in the area. A student who transfers to another school under this policy may remain at that school until the student completes the highest grade at that school. The District shall provide transportation only until the end of the school year in which the transferring school ceases to be identified for school improvement or subject to corrective action or restructuring. All notices provided to parents/guardians and transfer requests are governed by state and federal law.

If any District school is identified for improvement, the Superintendent or designee shall identify, develop, or revise a school plan for improvement in accordance with federal law. This school plan shall be presented to the Board for approval.

Students from low-income families shall be provided supplemental educational services as provided in federal law if they attend any District school that: (1) failed to make adequate yearly progress within a year after being identified for school improvement, or (2) is subject to corrective action or restructuring.
